# **Executive Summary**

Over the past decade, the number of students matriculating to UNC as transfer students has increased by over a third. These students originate from a range of other institutions, coming to UNC from the North Carolina Community College System (NC-CCS), NC private institutions, other UNC institutions, and institutions in other states. Due to this population's critical importance to the system's five-year strategic plan, this report provides context, data, and analysis on these students.

Key findings in this year's report include:

- The transfer student population is a large and growing segment of the student body.
  - The fall 2013 undergraduate student body consisted of over 47,000 transfer students. System-wide approximately 28% of all undergraduates, or one in four, entered a UNC institution as a transfer student.
  - The number of undergraduate transfer students entering UNC increased by 15% from fall 2008 to fall 2013, from 13,024 to 14,954.
  - From fall 2012 to fall 2013, the number of new undergraduate transfer students entering UNC increased by 205 students, growing from 14,749 to 14,954.
- The majority of transfers come to UNC campuses from NCCCS institutions, with these students representing the fastest growing segment of the transfer population.
  - In fall 2013, 56% (8,383) of all new transfer students came from NCCCS.
- The demographic details of the transfer student population mirrors that of the general UNC student population, with slightly more Pell grant recipients.
- Transfer students graduate at lower rates when compared to native UNC juniors.
  - Transfer students entering UNC as juniors in 2009 had an overall four-year graduation rate of 70% compared to an 84% graduation rate non-transfer juniors.
  - NCCCS transfers with an AA/AS degree and UNC-to-UNC transfers had the highest four-year graduation rate, 75%.
- Transfer students who declare majors upon entering the UNC system have a higher graduation rate than undecided transfer students. Using comparable sub-populations from the 2009 cohort, students declaring a major had a 72% graduation rate compared to 64% for those entering undeclared.

# Introduction

Over the past several decades students have become more mobile with the number students transferring into North Carolina's public four-year institutions increasing dramatically. These students come from the North Carolina Community College System (NCCCS), NC private institutions, other University of North Carolina (UNC) institutions, and institutions in other states. In order to better serve transfer students, UNC General Administration (UNC-GA) works closely with NCCCS and other partners to ensure continued improvement in the policies and services that promote seamless, inter-institutional educational experiences and foster student success.

The Transfer Student Report presented to the UNC Board of Governors (BoG) provides context, data, and analysis of transfer student success in the UNC system.<sup>1</sup>

### This report focuses on:

- Volume and distribution of transfer students
- Student demographics
- Intended majors
- Graduation and progress rates

This report also provides details on three major transfer student initiatives:

- 1. In February 2014, UNC and NCCCS approved an updated Comprehensive Articulation Agreement (CAA) that strengthens curricular alignment across the state's public postsecondary sectors.
- UNC-GA is also collaborating with NCCCS on an initiative supported by USA
  Funds that enables "reverse transfer." This grant aids in developing processes for awarding associate degrees to students who complete their community
  college requirements while pursuing their baccalaureate degree at a UNC
  institution.
- As of this writing, the North Carolina legislature has pending legislation requiring UNC-GA and NCCCS to study the various cross-sector agreements and partnerships that exist at the institutional and programmatic levels. In anticipation of this request, UNC-GA has begun data collection for this project.

<sup>1</sup> Definitions of terms used throughout the report are found in Appendix A.

# **UNC Transfer Student Enrollment Trends**

UNC transfer students continue to comprise a large segment of the overall UNC student body. In fall 2013, over 47,000 students enrolled in UNC's campuses had begun their UNC career through transferring from another institution, a number constituting approximately 28% of the current UNC undergraduate population. This student population is increasing, with newly matriculating transfers growing by 34% over the past decade and by 205 students in the last year alone.

Over half of all newly enrolled transfer students (56%) come to UNC campuses from the NCCCS. Over the last decade, enrollment of NCCCS transfers increased from 6,353 in fall 2008 to 8,383 in fall 2013 (+32%). Driving this growth is a significant increase in NCCCS transfers with an Associate of Arts or Associate of Science (AA/AS) degree, a sub-population that grew by over 59% in the last six years. During this same period, non-NCCCS transfers decreased, moving from 6,671 in fall 2008 to 6,571 in fall 2013 (-1%). Out-of-state transfer students account for 21% of the fall 2013 transfer students, over half of whom are North Carolinians.<sup>2</sup>

Figure 1 shows transfer student enrollment trends by origin of transfer (NCCCS, UNC campus, NC Private institution, or Out-of-State) across time.<sup>3</sup>

Figure 1: UNC Transfer Student Enrollment Trends - By Origin, Fall 2008 - Fall 2013

<sup>2 55%</sup> of out-of-state transfers claim North Carolina residency in their admissions documentations.

Annual totals of transfer students across all transfer types can be found in Appendix B, and fall 2013 transfer student enrollment data by campus can be found in Appendix C.

There are several substantive differences among transfer students from NCCCS, differences that have implications upon enrolling at UNC institutions and the subsequent pathways to degree completion. The categories used throughout this report are NCCCS transfers with an AA/AS degree, those with a non-AA/AS associate degree, transfers with 30 or more hours and no degree, and students who transfer with fewer than 30 hours of college credit (Other NCCCS Transfers). As shown in Figure 2, over the past six years, all NCCCS categories increased except "Other NCCCS Transfers.4"

<sup>4</sup> Campus-specific data for all transfer students from fall 2003 through fall 2013 is provided in Appendix D.

# **Demographics of UNC Transfer Students**

Figure 3 shows the demographic composition of the UNC transfer student body. Highlights in comparison to the overall UNC student population include:

- The majority of transfer students (65%) are under the age of 25, a relationship that remained stable over the past six years. In comparison, 84% of the total UNC undergraduate population is under the age of 25.
- The racial and ethnic composition of the transfer student population mirrors that of the total UNC undergraduate population, with the majority being white, followed by black and Latino.
- The majority of transfer students are female (57%), a figure comparable to the gender composition of the broader UNC undergraduate population (56%).
- In fall 2013, a larger proportion of transfer students were Pell grant recipients (49%), a number that has increased 1.6 percentage points over the past six years. Across the entire UNC undergraduate population, 36% received a Pell grant in fall 2012.
- In fall 2013, over 80% of new transfer students began their studies as full-time students.

Figure 3: Demographics of UNC Transfer Student, Fall 2008 & Fall 2013

# **Entering Class Level**

Admissions officers at UNC institutions review transfer applicant transcripts and admit students at different class levels: freshman, sophomore, junior, and senior. This process occurs at the institutional level with many decisions left to individual campuses. For example, a campus may choose not to award UNC credit for a NCCCS class in which a student received below a "C."

Figure 4 displays the distribution of new fall 2013 transfer students by entering class level.<sup>5</sup> This composition has stayed relatively stable over the past several years. Across all transfer types, the largest entry points are at the sophomore and junior level.

Figure 4: UNC Transfer Student Entering Class Level, Fall 2013

<sup>5</sup> Accompanying data is found in Appendix E.

# **Graduation & Progress Rates**

UNC-GA tracks the graduation rates of all transfer students who enroll at a UNC institution.<sup>6</sup> One measure of particular importance is the four-year graduation rate of transfer students who enter the UNC system as juniors. To create a comparable group, we benchmark these students against the four-year graduation rate for first-time freshmen who continued to their junior year at a UNC institution (native juniors).

Figure 5 shows that the four-year graduation rates for students transferring as juniors in the fall 2008 and 2009 entering cohorts are 71% and 70%, respectively. These graduation rates include full-time and part-time students. For the fall 2009 cohort, UNC-to-UNC transfers and students transferring from NCCCS with an AA or AS degree graduated at the highest rates at 76% and 75%. NCCCS transfer students without a degree and with few articulating hours had the lowest graduation rate at 57%. The four-year graduation rate for native juniors is 84%, 14% points higher than the 2009 transfer student cohort's graduation rate.

Figure 5: UNC Transfer Student Graduation Rates - Juniors, 2008 & 2009 Cohorts

Graduation data is found in Appendix F for all transfer class levels: freshmen (six-year), sophomores (five-year), juniors (four-year), and seniors (three-year).

# **Transfer Student Declared Majors**

Studies find that early declaration of a major leads to timely graduation, and indeed this proves true for UNC transfer students.<sup>7</sup> For transfer students that entered the UNC system in 2009, the four-year graduation rate for entering juniors who declared a major upon entry was 72%, compared to 64% for those entering undeclared.

In the 2013 cohort, 73% of students declared a major upon entry, a 6% increase from 2008. Among all transfer students declaring a major, 40% selected a major in one of three fields.

The top three fields for declared majors of transfer students are:

- Business (16%)
- Health Professions (15%)
- Education (10%)

Major selection, however, does vary across transfer type. Table 1 shows the majors of entering transfer students by percentage. Note for example, that the NCCCS: Other Associate is heavily concentrated in the Health Professions, reflecting the large numbers of Associate of Applied Science (AAS) recipients who enroll in UNC's RN-to-BSN (Bachelor's of Science in Nursing) programs.

For example, see "Get With the Program: Accelerating Community College Students' Entry into and Completion of Programs of Study" by Davis Jenkins and Sung-Woo Cho, Community College Research Center, Teachers College, Columbia University.

Table 1: Transfer Students Declared Majors (Percentage), 2013 Cohort (Darker Shades Indicate Higher Values)<sup>8</sup>

|                                    | NCCCS: | NCCCS:       |          | NCCCS: | UNC-to- | NC      | Out-of- |

The asterisk (\*) denotes that CAA Baccalaureate Degree Plans were developed around these majors.

# Other Transfer Initiatives Within UNC

### **Comprehensive Articulation Agreement**

Originally implemented in 1997 following a legislative mandate, the North Carolina Comprehensive Articulation Agreement (CAA) is a statewide agreement governing the transfer of credits between NCCCS and UNC institutions with the objective of smoothing the process of cross-sector transfer. In February 2014, the CAA was updated, amended, and refined to improve transfer for this increasingly important sub-population. The newly amended CAA requires the creation of Baccalaureate Degree Plans which allow the maximization of credit transfer across sectors. Development of these plans are currently underway. Additionally, UNC-GA is refining its website to include key information for prospective transfer students.

### Reverse Transfer

The Credit Where It's Due Initiative is a collaboration between the UNC and NC-CCS systems. Supported by USA Funds, officials at the two systems have developed a process to award associates degrees to students that fulfill community college requirements while pursuing their baccalaureate degree at a UNC institution (also known as reverse transfer). UNC-GA is currently exploring the possibility for scaling this project beyond the 8 universities and 15 community colleges in the Pilot.

### **Lateral Agreements and Partnerships**

As of this writing the North Carolina Legislature is considering a study that would require UNC-GA and NCCCS to jointly study cross-sector agreements and partnerships that exist among their constituent institutions. UNC-GA and the NCCCS have long been aware of these relationships - which frequently occur at the between programs - yet an understanding of their relationship to degree completion is unknown. In anticipation of this request, UNC-GA has begun work on this study so that we may use this opportunity to identify and then scale successful strategies across the state and system.

### Appendix A - Definitions of Terms

The following definitions are only for the purpose of this report:

- **Transfer student:** an undergraduate student entering a UNC institution for the first time but known to have previously attended a postsecondary institution as an undergraduate.
- NCCCS transfers: transfer students who attended one of the 58 NCCCS community colleges before entering a UNC institution.
- NCCCS transfers with AA/AS: NCCCS transfers who were awarded an Associate in Arts (AA) or an Associate in Science (AS) degree before entering a UNC institution.
- NCCCS transfers with Other Associate Degree: NCCCS transfers who were awarded with an associate degree other than an AA or AS (e.g., Associate in Applied Science (AAS), Associate in Fine Arts (AFA), or Associate in General Education (AGE)) before entering a UNC institution. These degrees are not part of the Comprehensive Articulation Agreement (CAA) developed and implemented between the NCCCS and the University of North Carolina (UNC).
- NCCCS transfers with 30 or more transfer hours: NCCCS transfers who do not have an associate degree, but have 30 or more transferable hours when entering a UNC institution.
- Other NCCCS transfers: NCCCS transfers who do not have an associate degree but have fewer than 30 credit hours when entering a UNC institution.
- **UNC-to-UNC transfers:** transfer students who last attended one of the 16 UNC institutions before entering another UNC institution.
- **NC private transfers:** transfer students who last attended one of the North Carolina private institutions before entering a UNC institution.
- Out-of-state transfers: transfer students who last attended an institution outside of North Carolina before entering a UNC institution.
- Class level: upon admission, class level is evaluated and decided by UNC institutions based on course work, credit hours, GPA, and selected fields.
- **UNC native juniors:** students that enrolled as first-time undergraduates at UNC and are first-time juniors at the start of the semester indicated in the tables.
- Reverse Transfer: a student's course credit is sent back to the community college for the purpose of evaluation for an associate degree while enrolled at a UNC institution.
- CAA Baccalaureate Degree Plan: Each UNC institution will develop, publish, and
  maintain four-year degree plans identifying community college courses that provide
  pathways leading to associate degree completion, admission into the major, and baccalaureate completion.
